

Light-duty J&J aluminum dump bodies are corrosion resistant and lighter in weight than steel or stainless.

Custom engineered for a light-duty chassis.

The DynaHauler/LDC dump body is designed for contractors, landscapers, and government agencies who need a smaller dump truck that works like a heavy-duty workhorse. It's a great choice for road maintenance and construction applications. Rely on this dump body to provide you with many years of hard work.

Rely on our experience.

There's no substitute for a truck body built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 55+ years of experience to build you the dump trucks you want - we'll build them to your specification and application.
